

Afton Pumps Pump-Flo Software Installation

Extract all of the files from the zip file that you downloaded from the Afton Pumps web site to a folder on your computer.

Installation Process

Step 1 - Begin the installation by running the Setup.exe program from the folder that the zip package was extracted to.

Enter your information in the dialog boxes and proceed through the default installation settings.

Step 2 – Next double click on the file CopyCatalogs.bat in the folder that the zip package was extracted to. This will copy the required catalog files to the default location. This process runs quickly so it may appear that nothing happened. If you installed the software to an alternate location from the defaults you will need to follow the instructions on the next page to manually copy the catalog files to the correct location.

Step 3 - Upon initial launch of the Pump-Flo software you will need to enter the license key and activate the software in order to continue and use the program.

The license key for Pump-Flo is **f870-5e92-8a05-95f0**

Enter your user information into the activation window and then continue.

PIPE-FLO® and PUMP-FLO® Desktop pull all catalogs from the Preferences section of the program. This section has a default location but can also be customized. Therefore, it is recommended that the user verify the location defined in the Preferences section before they save the updated catalogs to their computer.

To determine where your catalogs are being pulled from, please follow the steps below:

1. Open your program
2. Click the Tools Menu
3. Select Preferences to open the Preferences dialog box
4. Verify the directory listed under Catalog

Once you know where your catalogs are being pulled from, you are able to download, extract and save the updated catalogs to your computer.

To save your catalogs to your computer, please follow the steps below:

1. Download your catalog files
2. Open your File Explorer
3. Navigate to your file download location
4. Extract the catalogs from a zip file
5. In a separate File Explorer window, navigate to the location listed in the Catalog Preferences
6. Copy the extracted catalogs from your file download location to the Catalog Preferences location.
 - a. When copying the catalogs over, if you are asked to replace the catalog that is already there, please click "YES".
7. Close all your File Explorer Windows
8. Close your program if you have not already
9. Re-Launch your program to use your new catalogs
